

Screens spark it. Phones finish it.

Add a next step at every screen.

1

The window

Scan to see today's menu, book a table or view all listings, even when you're closed.

2

The till

Scan to join the loyalty scheme or leave a review while the experience is fresh.

3

The queue

Scan to pre-order, browse the full range or claim an offer.

QR codes that actually get scanned.

1 Big enough to scan from where people stand

Test it from the pavement or the back of the queue.

2 One clear reason to scan

"Scan for 10% off" beats a bare code every time.

3 Track it

A unique code per screen shows which spot works best.

Want your screens to drive action?

I'll help you add a measurable next step to every screen.
